

Company Introduction

REM Asia 2023

REDEX is connecting the RECs Ecosystem

Key Geographical Coverage – 10 Regions

10 Regions / Market Boundaries with Assets Onboarded

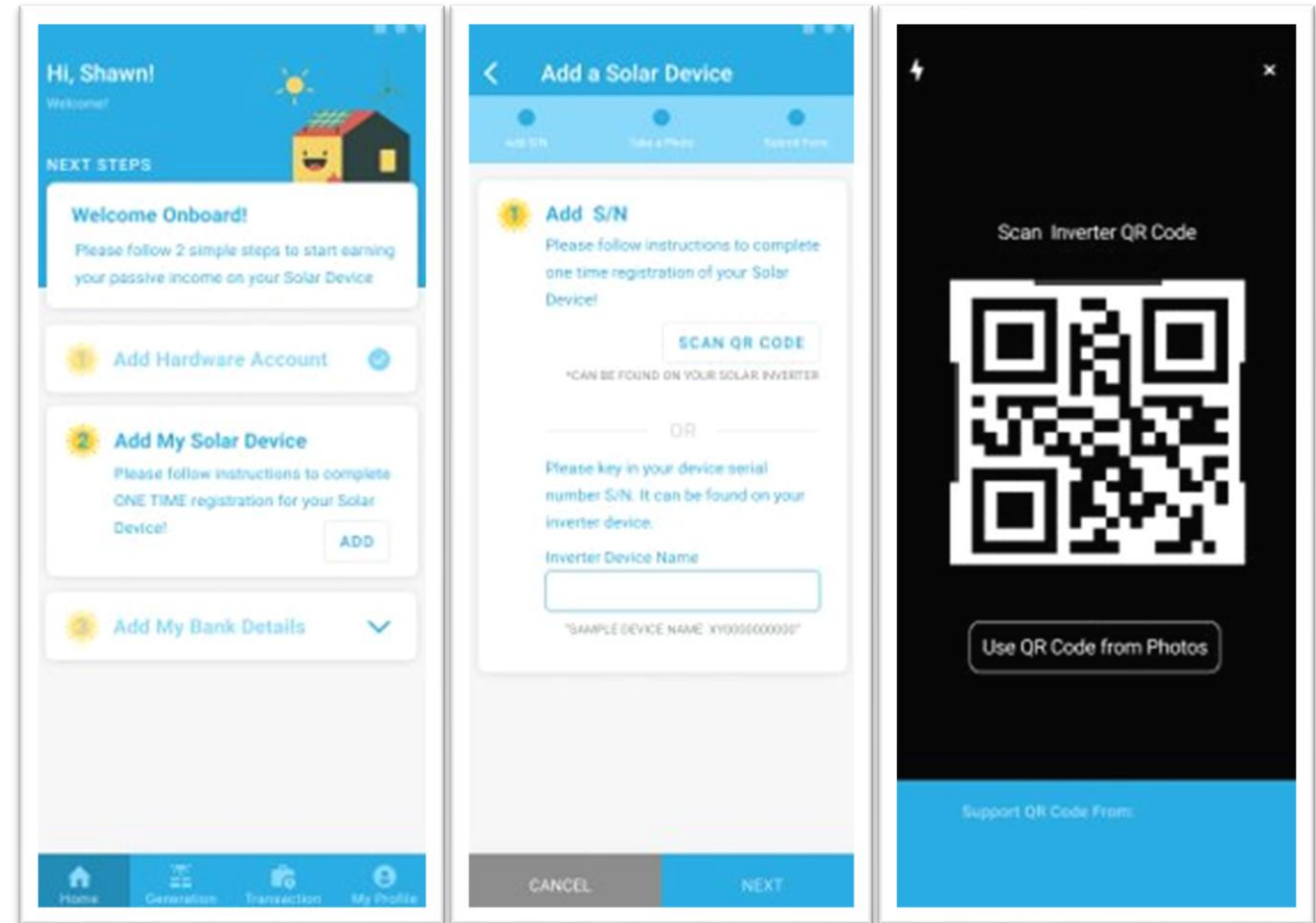

- China
- Vietnam
- India
- Philippines
- Malaysia
- Thailand
- Singapore
- Indonesia
- Taiwan
- Korea

1. First Accredited Platform Operator in IREC Registry
2. Fully API-Integrated with the Evident Platform
3. RECs Registration Services (No Fees)
4. Trading and Settlement Services (Transaction Fees)

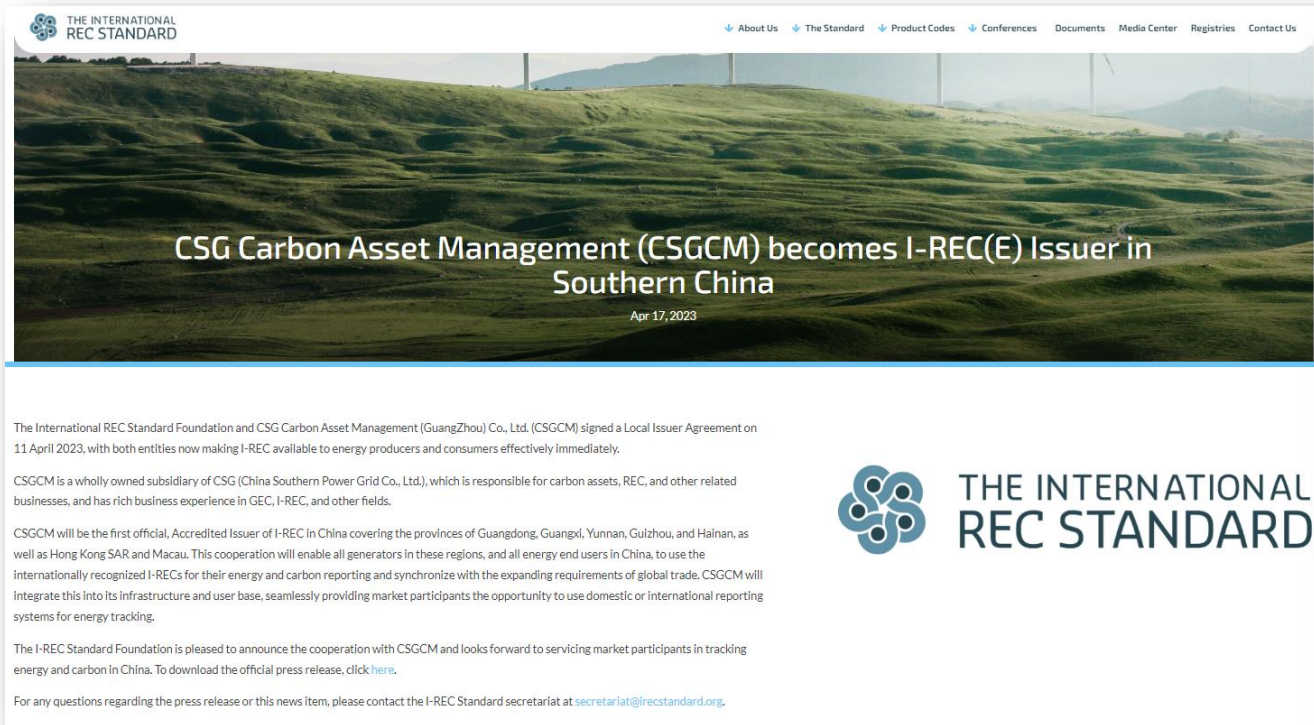

RECONNECT

1. Rooftop Solar is the next phase of PV Solar growth in many parts of the world
2. Many such small devices do not necessarily have the right documentation required for asset onboarding
3. Partnering IREC Foundation, REDEX has developed a proprietary way to collect and verify asset information and generation data
4. Our latest product – REConnect allows even residential solar to register RECs seamlessly

Partnership with China Southern Grid (CSG)

1. CSG Carbon Asset Management (CSGCM) awarded IREC (E) Issuer License
2. REDEX partners CSGCM to build a localized RECs trading platform for China RE market

Thank You

Trace, Trade, Trust
www.redex.eco

Buyers need Trust, Transparency and Liquidity

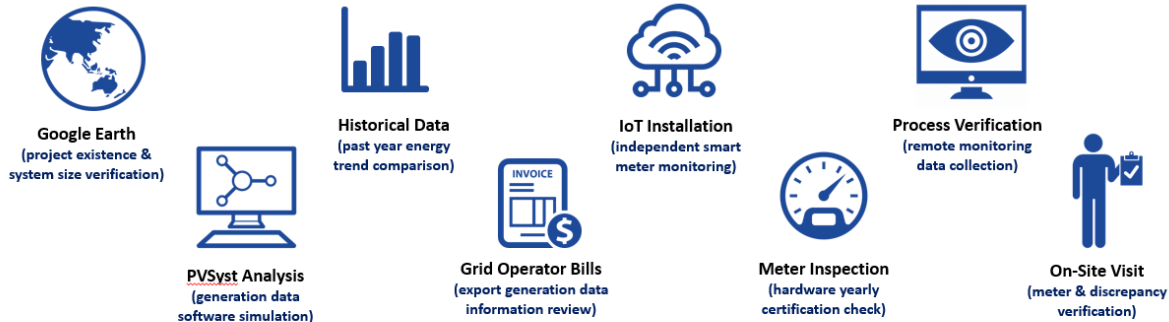

Current RECs Market

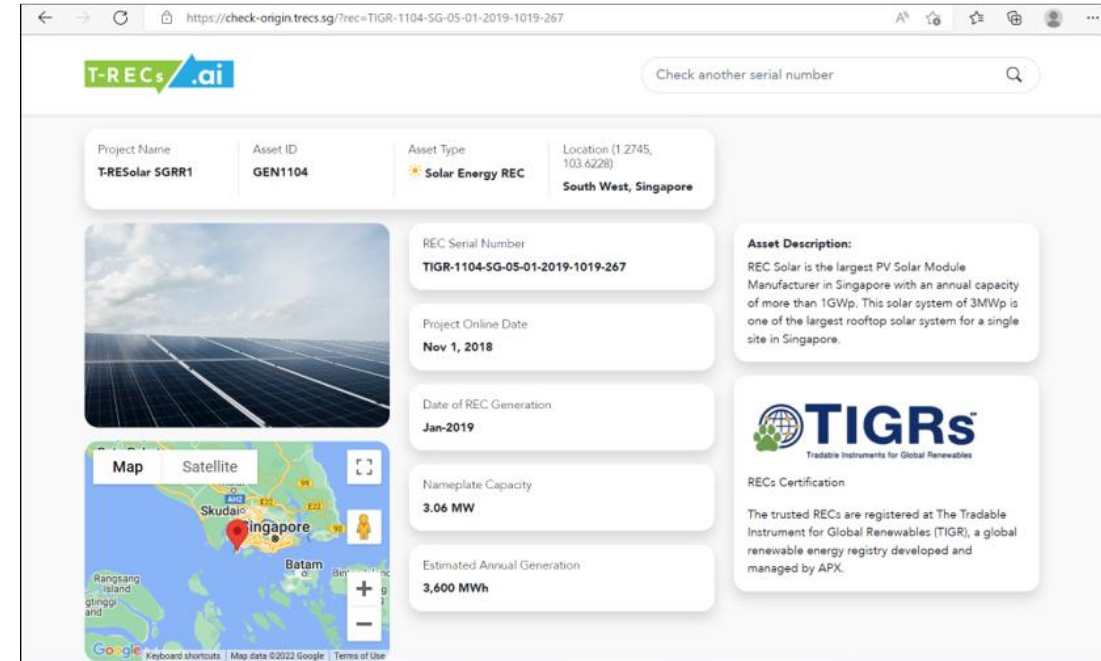

- **No market makers** – most transactions through brokers
- **High transaction fees** charged by brokers
- **Illiquid market** due to opaque pricing

T-RECs.ai Data Validation Process

T-RECs.ai goes through various steps for data validation. Requirements are subjected to size, age and location of system, and are not limited to the following processes.

T-RECs.ai provides reliable and auditable process

REDEX Solution

- **Best-in-class RECs verification & traceability processes**
- Investment in technologies aimed at **improving trust and credibility** of platform (e.g. Blockchain & IOT)

RENEWABLE ENERGY CERTIFICATE

REDEX This certificate congratulates
DRBWLNHS4728
on consuming renewable energy in the total sum of
1,000 kWh

REC Solar 3MWp Rooftop
Registry APX TIGR
Vintage 2021, 2022
Country Singapore
Fuel Type Solar
Date of Claim 25 Jan 2023

Serial Number
TIGR-1156-SC-01-04-2023-00000001-1 to 1

REDEX empowers consumers and individuals to demonstrate their commitment to fighting global climate change. Supporting sustainable and renewable energy sources through the purchase of Renewable Energy Certificates (RECs) on our climate platform powered by block chain technology and artificial intelligence.

King An Wu
Chief Executive Officer
REDEX Pte Ltd.

Introduction to Renewable Energy Certificates (RECs)

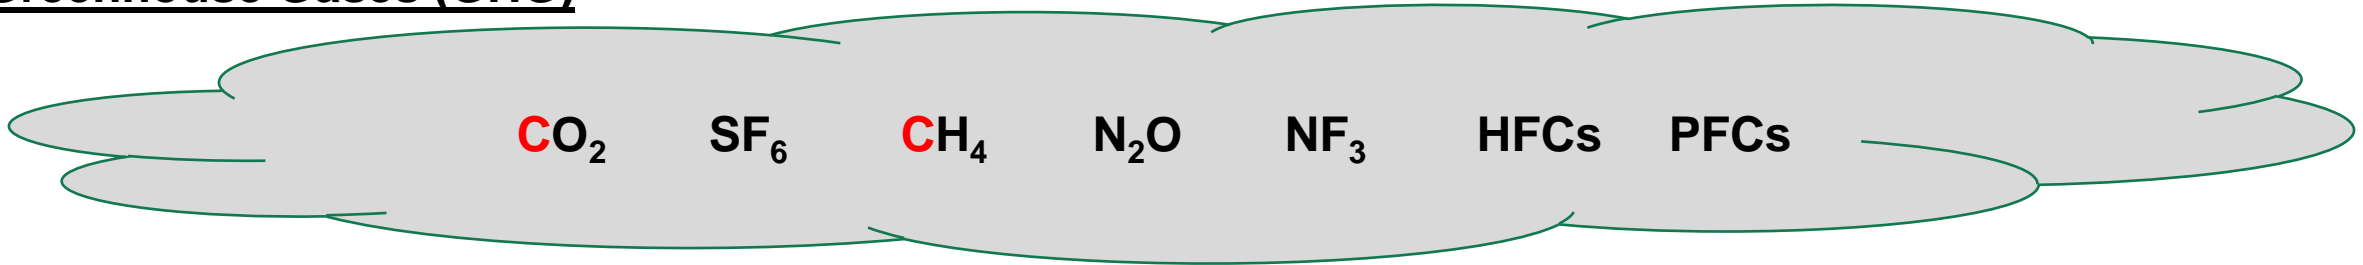

Appendix

Trace, Trade, Trust
www.redex.eco

Scope 1, 2 and 3 Emissions – What are they?

Greenhouse Gases (GHG)

SCOPE 1

DIRECT EMISSIONS FROM OPERATIONS

Company Facilities

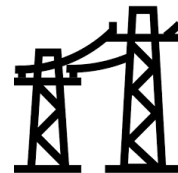

Company vehicles

SCOPE 2

INDIRECT EMISSIONS FROM PURCHASED ENERGY

Purchase of Electricity, Heat or Steam

Confidential

SCOPE 3

ALL OTHER INDIRECT EMISSIONS ASSOCIATED WITH A COMPANY'S ACTIVITIES (UPSTREAM & DOWNSTREAM)

Business Travel

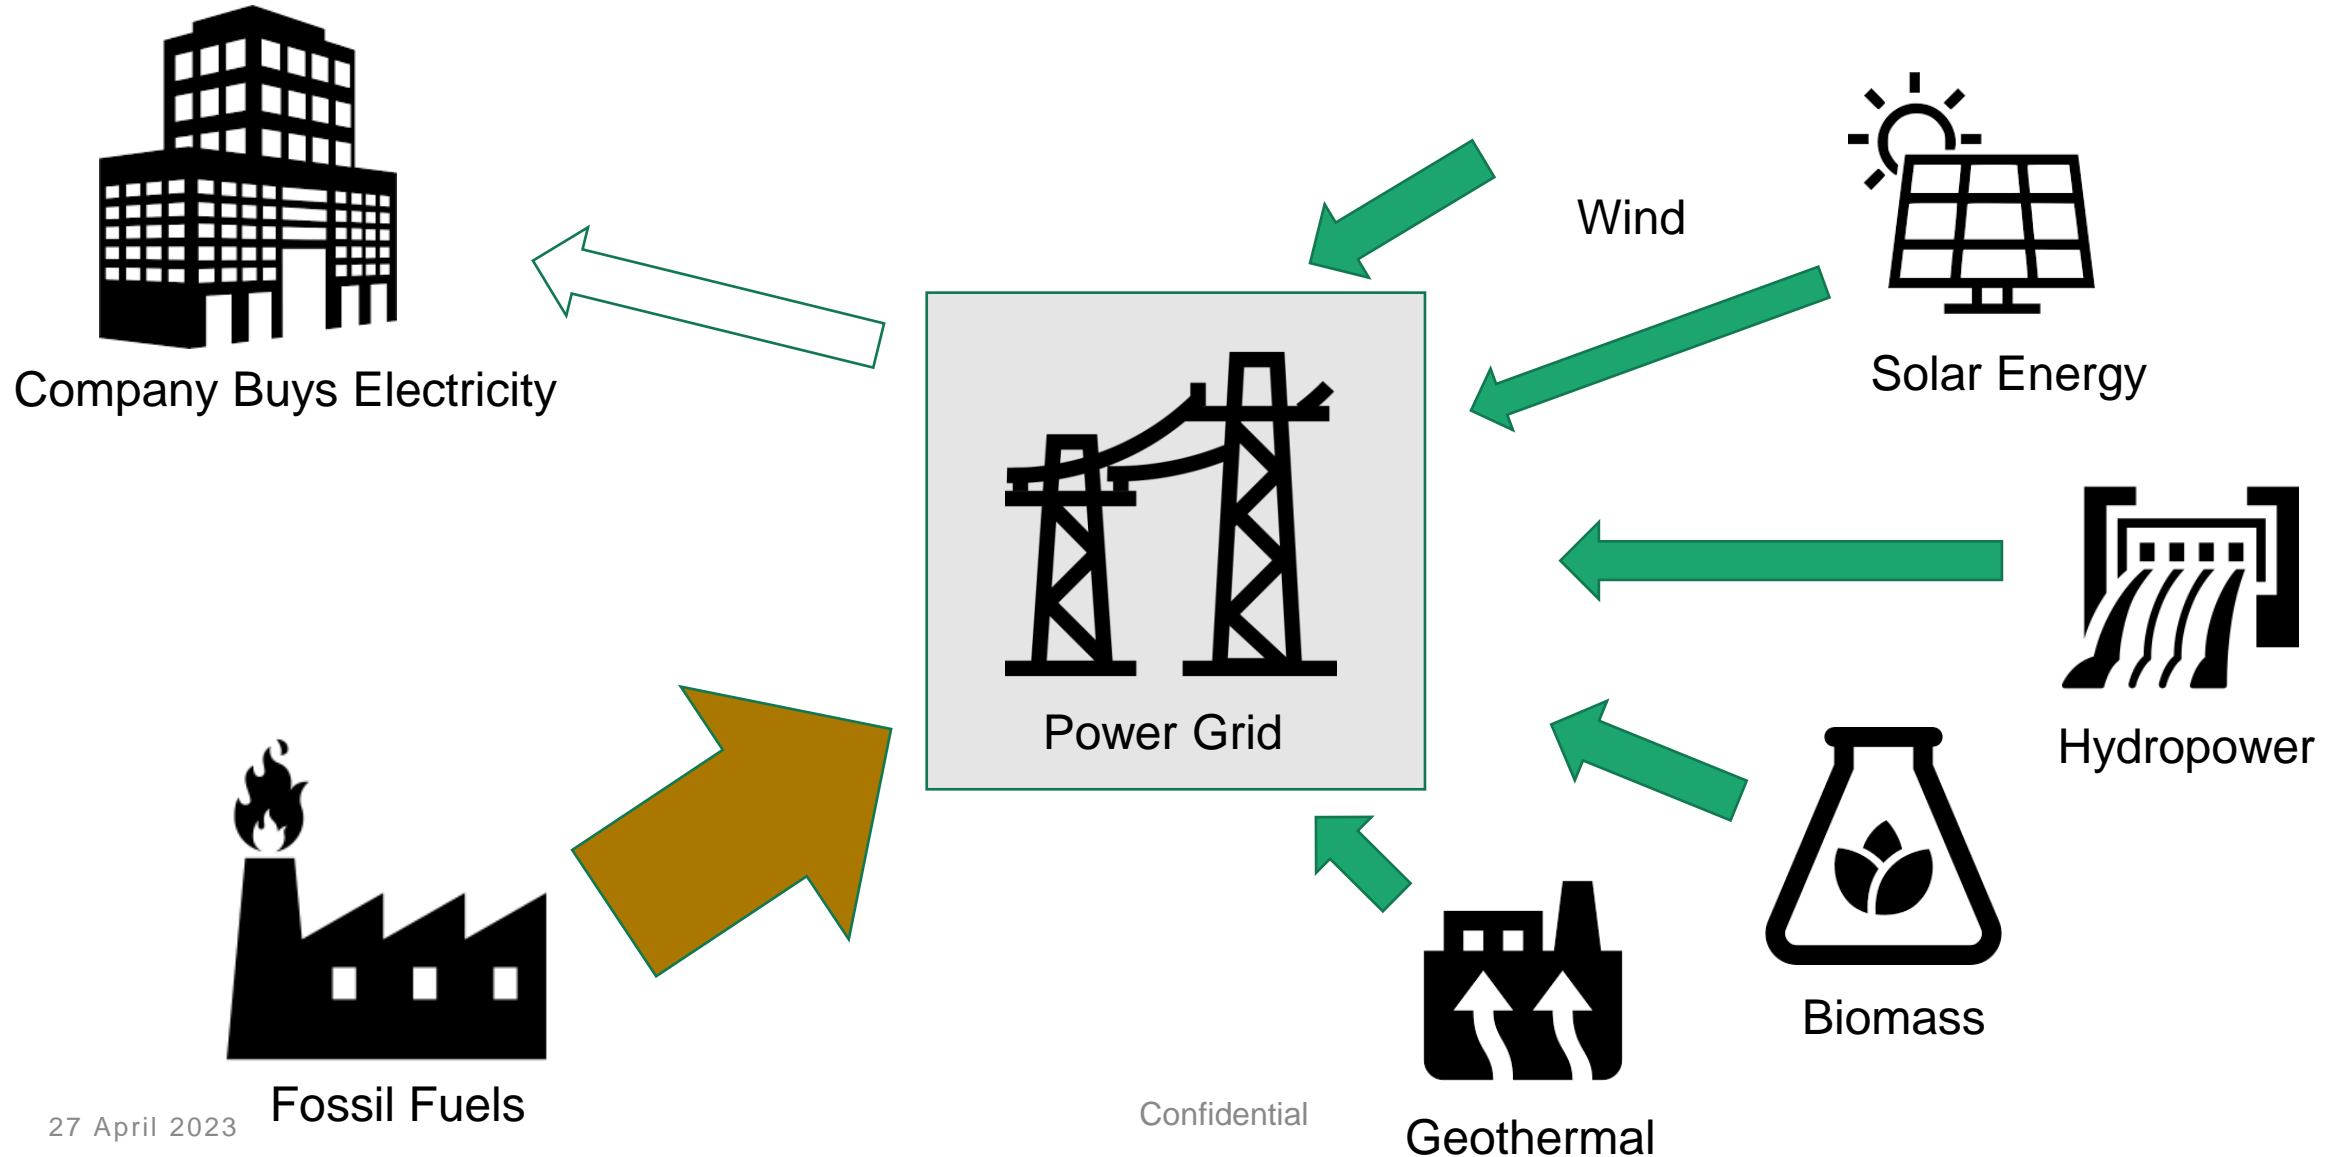

Use of sold products

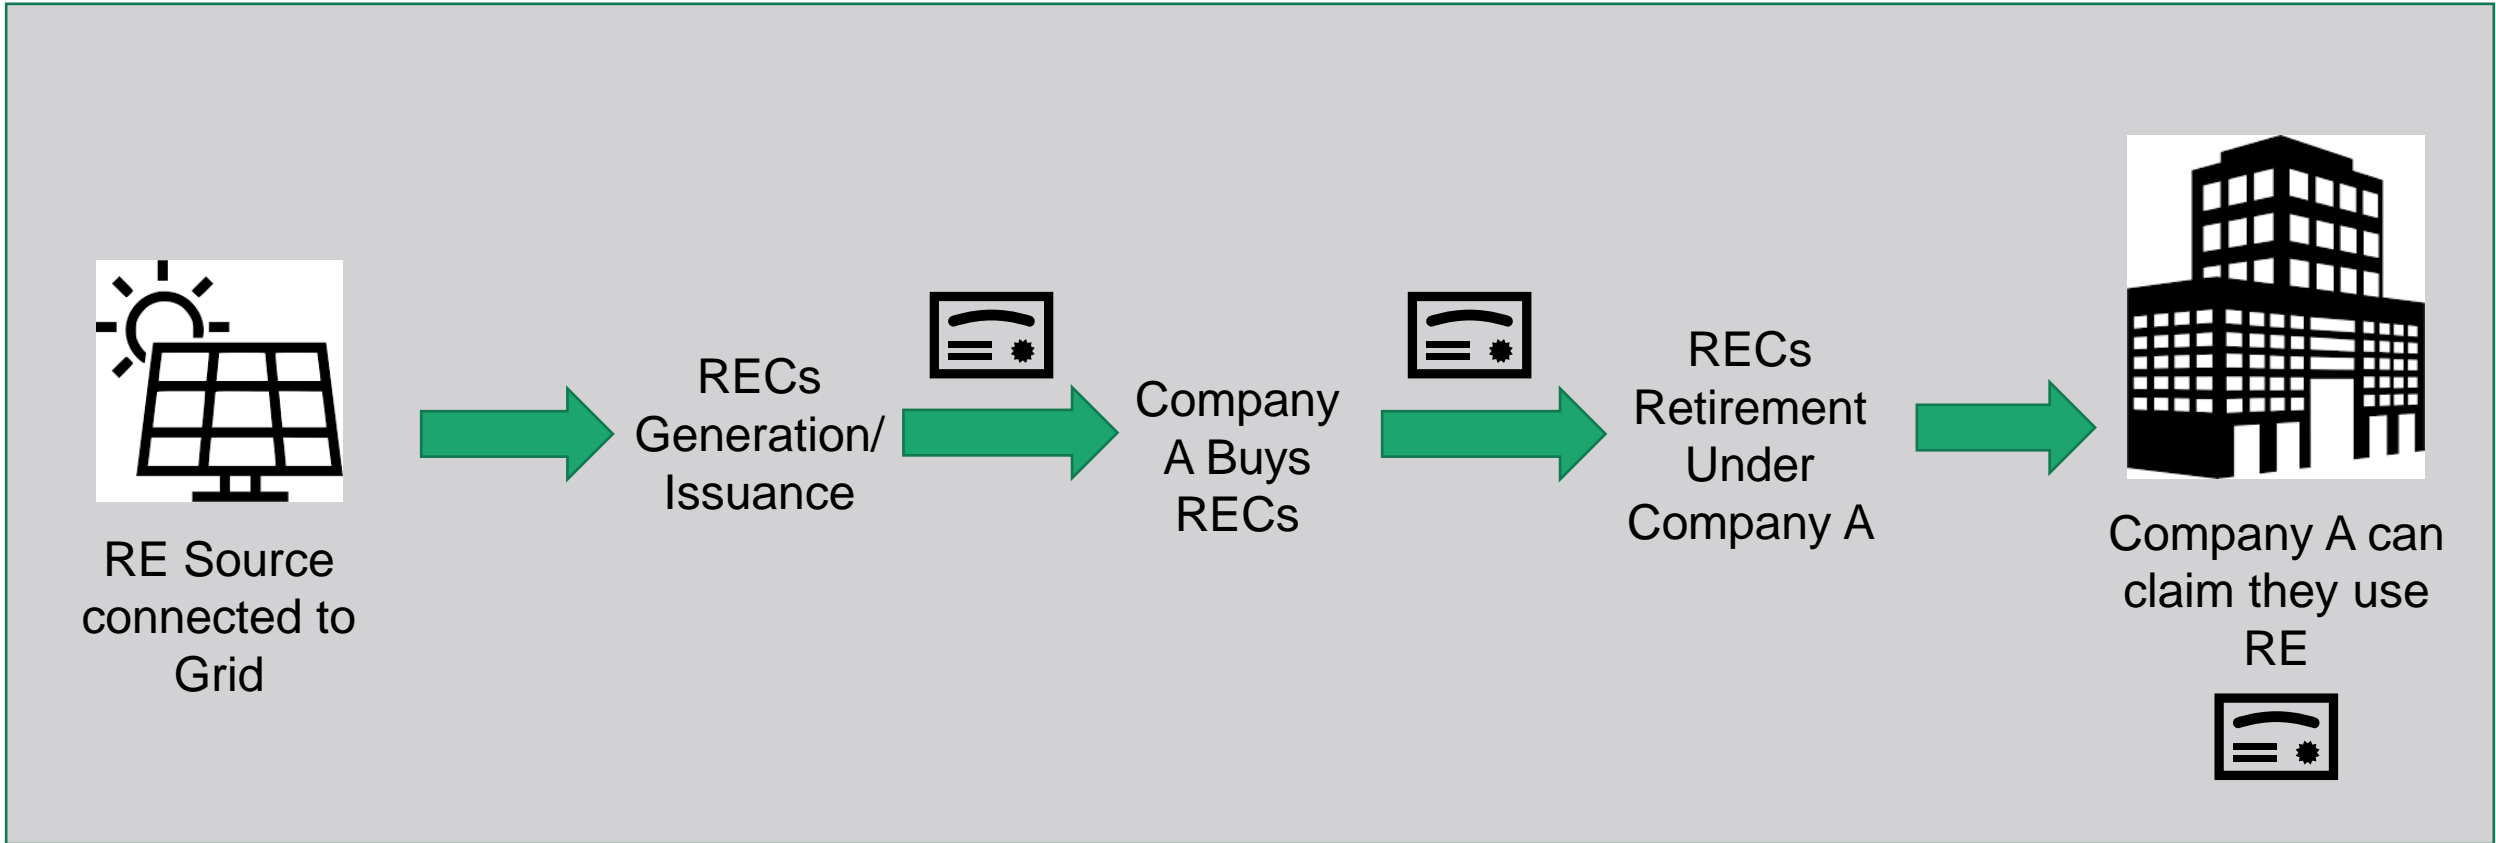

Processing of sold products

Scope 2 – Indirect Emissions from Purchased Energy

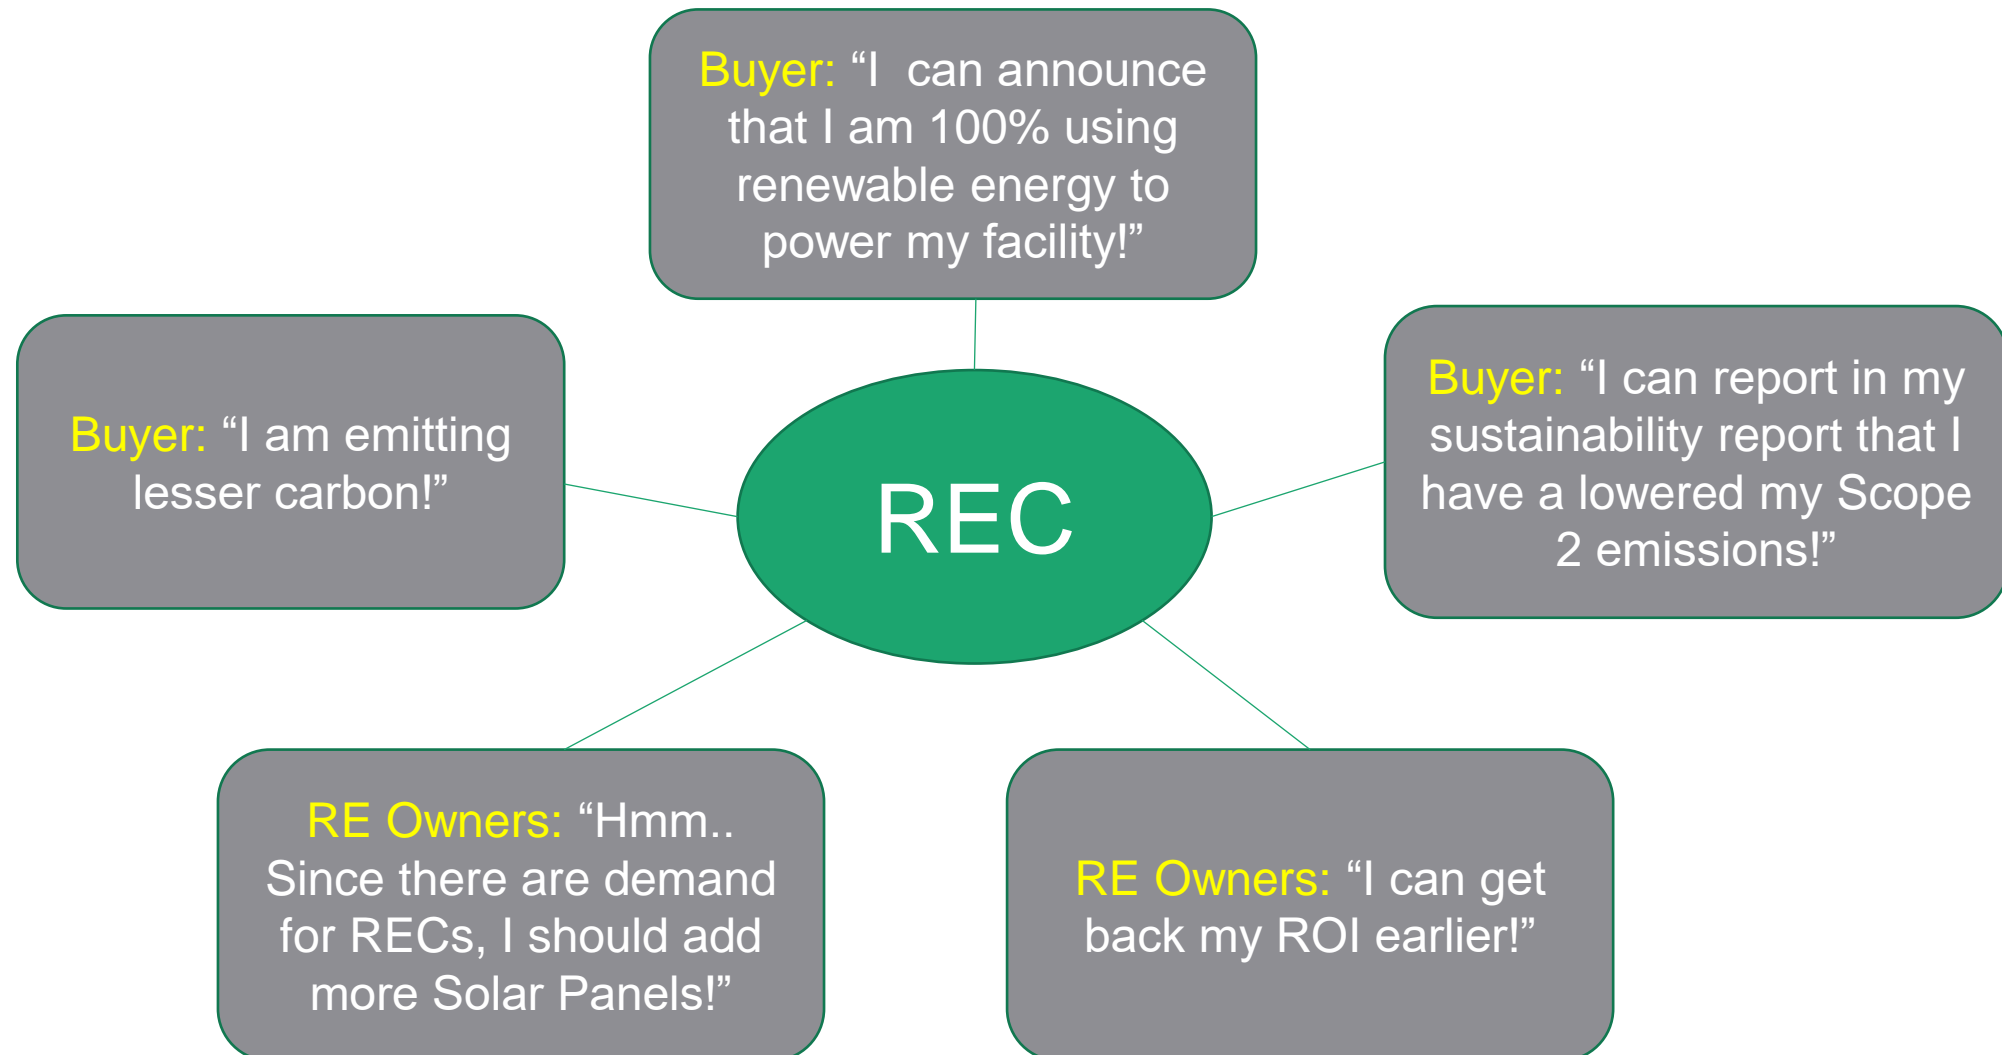

How REC works?

Retirement = Redemption = Cancellation

What does it mean to buy RECs?

Thank you!
